

## Your One-Stop Organic Solution!

Eco-Smart 100% Recycled Bucket  
Active-Aqua Commercial Pump  
Eco-Air Large Air-Stone  
Tubing/Delivery Harness  
Optional Boogie Blue Filter  
Boogie-Brew, Sea90, WormGold+

**SUPERB VALUE**

**Boogie-Bucket Pro All-In-One Brew Kit:**  
Everything you need to start making world class compost tea - conveniently & easily at home.

### SEA-90 Minerals

The most complete trace mineral ever!  
**Loaded** with calcium, magnesium, potassium & over 90 elements.

**CREATED FROM PURE OCEAN WATER  
CONTAINING VITAL TRACE MINERALS**

SEA-90 sea-mineral solids are made in a pristine location from fresh sea water rich in trace elements. Solar dehydration removes all water. SEA-90 never receives rainfall: This guarantees that all of the vital minerals and elements are in the perfect proportions & quantities found only in pure ocean water. Crops exhibit larger yields, plus increased disease and insect resistance. Tissue analyses indicate higher vitamin, sugar & protein levels. SEA-90 enhances tea brews and massively boosts microbe populations in soil!

## Maximize Boogie's Benefits:

- Build a Carbon-Base "engine" for those high-octane Carbon-Recyclers!

- Pour half an inch of **WORM GOLD+** along with a mild sprinkling of **SEA-90 minerals** around your plants' stems as a one-time, soil-boosting 'carbon base' treatment.

- These catalyzing agents work to boost your soil-media's bioactive potential, optimizing the conditions for fungal & microbial life forms to thrive in.

- Activate the base once or twice weekly with fresh infusions of Boogie Brew Tea.

- Frequent tea doses release huge floods of potent carbon-recycling organisms directly into your carbon base.

Now you've provided the live fuel in your brew with a high-power soil-engine to fire on all cylinders in!

- This ignites a biological cocktail of microbial food sources while supercharging beneficial activity in your plants' critical root zone.

- Apply **SEA-90** twice monthly plus Boogie Brew twice weekly to unleash a dynamic-duo of horticultural success on your soil & plants.

**Achieve Gardening Excellence!**

## Some Of Our Other Products

### Boogie-Brix

Supreme soil sweetener & microbial food source. Achieve record brix levels with Boogie's blend of sugars & bio-stimulants.

- Dramatic improvements in flavor & quality!

### Boogie-Blue Filter

Safely de-chlorinate water and save soil ecology. Threads onto 3/4" hose. Reduces metals & toxins. Lifespan: 35,000 gallons.

- An outstanding value.

### WORM GOLD-PLUS

The last word in castings! Guaranteed biology: 200 million CFU Chitin Degraders, 400 million CFU Cellulose Degraders

**'Veeganic':** No manures used in vermi-culture feed.

- **PLUS**= Volcanic minerals & sea kelp added to stock.

## What Is Boogie Brew Tea?

- Boogie Brew is a one-stop solution for all your organic gardening needs.
- Our special formula works as both a 100% natural, high quality vegan fertilizer, and as a soil-vitalizing biological tonic.
- Activate a dynamic blend of bio-matter for stunning results in the garden!

- Maximize plant protection & immune response using ultra high-chitinase worm castings: The soil-food-web's own primal defense system.

### Why Is Boogie So Effective?

- Boogie uses a proprietary blend of composted 'Veeganic' ingredients.
- Deluxe soil conditioners combine to produce a superior 'living tea', lab-certified for maximum biology.
- Upon aeration, this infusion acts as a catalyzing agent, bridging the gap between soil, nutrient & plant.

100% BOOGIE-GROWN: Delicious!

Award winning French radishes: 'Best Italian Restaurant' Boulder, CO

\* Easy brewing method provides fast extraction. (Use a high-output air pump of 45liters/min. or more).

## Brew Your Way To A Greener Thumb Today!

Sebastopol, CA: Winter greens, grown in a HEPA-filtered, radiation sealed greenhouse; cultivated in cocopeat, on a 100% Boogie-Brew diet, (diluted 1:10), fed twice weekly. Organic trace minerals were sprinkled onto the soil, with only a single application, as recommended.

"Within just weeks, an abundant food crop of delicious & nutritious produce was achieved, easily, and above all, at a remarkably low cost!"  
.....Paul A. Sebastopol, CA

"The oil content & quality of my flowers has never been this high...potent taste & smell. No health or deficiency issues...saved money. Boogie made it easy"

.....J. Santa Rosa, CA

"Since using Boogie-Brew, our garden has achieved new levels of wellness. Tomatoes tripled in size after two weeks. Roots are bursting out of the pots! Friends are amazed at our plants' vitality; fed only ultra-mild fertilizers -things couldn't look better"

.....R. Boulder, CO

(Visit website for a gallery of more gardening success).

Boogie uses biodegradable packaging with an air-permeable membrane: Aerobic organisms living in the dry tea blend can breathe. Result? Every 'batch of biology' brewed will rage!

Our proprietary recipe of fermented 'Veeganic'™ ingredients:

Premium biodynamic humus,  
High-Chitinase<sup>1</sup> Super Quality Worm Castings,  
Rock Phosphate, Langbeneite,  
Organic Soy, Kelp & Alfalfa Meals,  
Cold water North Atlantic Kelp Extract,  
Nutritional Yeast, (Sacharomyces Cerevisia),  
Ocean Trace Minerals & Volcanic Rock Powder,  
Humic Acid, (95%), from Leonardite Shale,  
Organic Evaporated Sugar Cane Juice

## Smart & Economical Growing With 'The Pro-Biotics Of Horticulture'

- Boost your plants' metabolic efficiency.
- Reduce transplant shock & stress.
- Grow high-grade edibles rich in aromatic oils.
- Eliminate pricey "fortifiers" & supplements.

Perfect Boogie Cukes

Rockin' Boogie-Roots

### WHY PAY FOR WATER?

Banish plastic-jug dependency!  
End the costs, transportation & carbon footprint of liquid products

The burn from fancy chemical "nutrients" destroys your soil's microbial web of life.

This forces plants to rely on external & synthetic foods.

Δ Support healthy eco-systems: Protect groundwater & wildlife habitats from contamination.

Δ Strong plant defenses lower water, pesticide & nutrient needs.

Δ Farmers save valuable dollars while conserving precious resources.

## How to Brew

Step 1: Fill burlap bag with dry tea. Use 1 cup for each 5gallons brew. Make up to a 50gallon 'concentrate' in a 5gal. bucket by using up to 10 cups of dry tea in the bag.

Step 2: Place one or more air-stones into the brewing reservoir. Optional: place an extra stone directly into bag. Use a strong air-pump, (45liters/min or more), available at your local garden or pet store.

Step 3: Immerse bag in chlorine-free reservoir. Use an inline-filter for the chlorine /chloramine compounds and other chemical toxins that are harmful to soil organisms.

Step 4: Brew away! Turn on air-pump; After a few hours bio-active bubbles begin to explode with living nutrients!

\*Allow 12+ hrs for maximum biological activity to occur.

**Application:** Full Strength Tea uses 1 dry cup per 5 gallons brew

- BOOGIE GREATLY INCREASES PLANT METABOLISM: ALWAYS FEED ADDITIONAL NUTRIENTS AT HALF STRENGTH; 700ppm to 900ppm max!
- Soil/Hydroponics: As a potent plant & root tonic, dilute full strength tea 1:10 - Drench twice weekly to enhance existing fertilization programs.

• Stand-alone fertilizer; (added to rich soils): Feed anywhere from half to full-strength tea once every 5 days with occasional organic top-dressings. (No liquid fertilizers!)

- Foliar-Feed: Dilute 1:5 for a protective leaf-spray.
- Lawns: Dilute 1:20 & spray weekly.
- Optimum pH: 6.8-7.3. Ideally, use an organic pH buffer like citric acid or Vitamin C crystals.
