

Your One-Stop Organic Solution!

INCLUDES:
Eco-Smart 100% Recycled Bucket
'Active-Aqua' Commercial Pump
'Eco-Plus' Large Air-Stone
Tubing/Delivery Harness
Boogie-Tea, Sea90, WormGold+
Optional: 'Boogie-Blue' Water-Filter

Everything you need to start making world class compost tea at home!

CHAMELEON Hose End Sprayer:

- Absolutely perfect for Boogie application!
- Add tea to **Chameleon's** 36oz. container.
- Dial-in correct dilution: 8oz PER GALLON.
- Three spray types: Stream, Fan, Shower.
- Includes **Quick-Disconnect** with water-stop.
- This tool simply *rocks* at delivering tea, *efficiently & easily*, to your plants & soil.

The Farmer's Friend© Program:
Build a Carbon-Base "Soil Engine" for the high-octane Carbon-Recyclers!

- Pour about a half-inch of **WORMGOLD** plus a mild sprinkling of **SEA-90** around the base of your plants as a one-time soil-boosting treatment.

These catalyzing agents work to raise your soil's bioactive potential, optimizing conditions for fungal & microbial life-forms to thrive.

- Activate soil twice-weekly with fresh Boogie Brew: **'The World's Greatest Compost Tea!'**

Frequent tea doses release huge floods of potent recycling-organisms directly into your carbon base.

- Apply **SEA-90** twice monthly along with regular Boogie-feedings to unleash a *dynamic-duo* of horticultural success on your soil and plants!

This ignites a biological cocktail of microbial food sources while supercharging beneficial activity in your plants' critical root-zone.

Achieve Gardening Excellence!

Other Featured Products

Boogie-Brix

Supreme soil sweetener & microbial food source. Achieve record brix levels with a vital blend of sugars & bio-stimulants for dramatic improvements in flavor and quality!

Boogie-Blue Filter

Safely de-chlorinate water and save soil ecology by reducing the presence of metals & toxins

- Threads onto 3/4" hose.
- Treats up to 35,000 gals.

WORM GOLD-PLUS

Veeganic™: Manure-free vermiculture feed system infused with volcanic minerals & sea kelp .

- 200 million CFU Chitin Degraders
- 400 million CFU Cellulose Degraders

SEA-90

Complete trace mineral. Loaded with elements including calcium, magnesium, potassium and over 90 minerals.

What Is Boogie Brew Tea?

- Boogie Brew is a one-stop solution for all of your organic gardening needs.
- Our special formula works as both a 100% natural, high quality vegan fertilizer, and as a soil-vitalizing biological tonic.
- Activate a dynamic blend of bio-matter for stunning results in the garden!
- Maximize plant protection & immune response using ultra high-chitinase worm castings, the soil-food-web's own primal defense system.

Why Is Boogie So Effective?

- Boogie uses a proprietary blend of composted Veeganic™ ingredients.
- Deluxe soil conditioners and amendments combine to produce a lab-certified 'living tea'.
- Upon aeration, this infusion acts as a catalyzing agent, bridging the gap between soil, nutrient & plant.

BOOGIE-GROWN = Delicious!

The World's Greatest Compost Tea!

- Boost plant metabolic efficiency.
- Reduce transplant shock & stress.
- Grow high-grade edibles rich in aromatic oils.
- Eliminate pricey supplements & fortifiers.

Perfect Boogie Cukes

10-12 days!
Rockin' Boogie-Roots

Go Green by Growing Green! Eliminate plastic jug usage Reduce the need for costly liquid fertilizers

The burn from fancy chemical 'nutrients' destroys the soil's microbial web of life, forcing plants to rely on external & synthetic foods.

Δ Support healthy ecosystems: Protect groundwater & wildlife habitats from contamination.

Δ Stronger plants reduce pesticide, nutrient and water consumption.

Δ Farmers save valuable dollars while conserving precious resources.

Brew Your Way To A Greener Thumb Today

Step 1: Add dry tea to brew-bag. Use 1 cup for each 5 gallons of brew. Make up to a 50 gal. 'concentrate' in a 5 gal. bucket by using up to 10 cups of dry tea in the bag.

Step 2: Place one or more air stones into the brewing reservoir. Optional: place an extra stone directly into bag. Use a strong air pump rated at 45 liters/min. or more.

Step 3: Immerse bag into a chlorine-free bucket or reservoir. Use a Boogie-Blue filter to create this environment.

Step 4: Brew away! Power-up air pump, and within hours bio-active bubbles begin to explode with living nutrients!

Allow 12 to 24 hours for maximum biological activity.

Application: Full-strength tea uses 1 dry cup per 5 gallons brew

- **Soil/Hydroponics:** Dilute full strength tea 1:10 and drench twice weekly to enhance existing fertilizers.
 - **Stand-alone fertilizer:** For rich soils, dilute 1:4 and feed once every 5 days with occasionally-applied organic top dressings. (No liquid fertilizers!) Apply half-strength, (1:2), to plants grown in mild soil.
 - **Foliar-Feed:** Dilute 1:5 for a protective leaf-spray.
 - **Lawns:** Dilute 1:20 & spray weekly.
 - **Optimum pH:** 6.8-7.3. Ideally, use an organic pH buffer like citric acid or Vitamin C crystals.
- Boogie greatly increases plant metabolism:**
Always apply additional fertilizers at half strength and use on separate days from tea-applications!
