

"I sprayed 5 pounds **SEA-90** per acre at a cost of \$4 per acre, and grazed 73 head of cattle on an 8-acre pasture for six days. When I moved the cattle off, there was still enough grass left to bale hay. I also offer SEA-90 to my cattle as a mineral and they look better than ever!"

Mitch F, Greenbrier, AR

"By adding 5 pounds **SEA-90** per acre to my liquid row support solution for corn, my production went from 135 bushels per acre to 165 bushels per acre. I am impressed by the yield and I know it must be the SEA-90!"

Nathaniel S, Humboldt, IL

"**SEA-90** saved me 50% on fertilizer costs while almost doubling my production after spraying my hay with 5 pounds of SEA-90 at less than \$4/acre."

Merle G, Summers, AR

"After using **SEA-90**, my fruit trees had more foliage, larger and more uniform fruit and less insect damage. Our grape vines are more plentiful and ripened more uniformly. I'm sold!"

Allan B. Kirkland, IL

"Last year I spread **SEA-90** by hand on my lawn, around my shrubs and in my garden. I also fed the sea minerals to my chickens. Even though we had a terrible drought with a water ban, our grass and shrubs stayed green. The garden produced excellent vegetables and our chickens grew better than ever. They actually looked like small turkeys and the meat was tender and delicious."

S. Vander Heiden Hampshire, UK

Partial Elemental Analysis
SEA-90®

Why buy pricey supplements like Cal/Mag? **SEA-90** is a superb source of *calcium, potassium & magnesium* plus trace elements.

▪ **WHY PAY FOR WATER?** ▪

Banish plastic-jug dependency.

**Lower Your Carbon Footprint:
Slash Liquid Product Costs!**

Boogie Brew Products:

**Smart & Economical Growing With
'The Pro-Biotics Of Horticulture'**

Activate your own biological *super nutrients* for pennies per gallon!

**All Livestock And Poultry
Thrive on SEA-90 Pasture.**

SEA - 90®

Partnering With Nature

SEA MINERAL SOLIDS FOR USE
IN ALL TYPES OF ORGANIC
AND CONVENTIONAL CROP,
PASTURE & LIVESTOCK
PRODUCTION

CREATED FROM PURE
OCEAN WATER CONTAINING
VITAL MINERALS AND
TRACE ELEMENTS

SEA-90 is a result of the research provided by **Maynard Murray MD**, (1900-1982), a pioneer of sea energy agriculture. Early in his career, Dr. Murray realized that Americans were living longer, but chronic diseases were steadily increasing. He found that soils and foods grown therein had become **critically mineral deficient** due to erosion, leaching and poor soil management. Farmers were using greater amounts of fertilizers and chemicals to increase production, yet the results were **mineral-deficient crops & livestock**.

Doctor Murray learned that ocean water contains from **85 to 92 naturally balanced trace elements**, and that sea life inhabiting unpolluted oceans rarely ever exhibited any disease symptoms. After establishing the **relationship between ocean minerals and health**, he experimented with sea solids for the purpose of **vitalizing soil**. In order to conduct his research, Dr. Murray needed a source of dry sea-minerals. Fortunately, he found one location in the northern hemisphere where sea-solids are created naturally by **solar dehydration** from pristine ocean water and he began to prove his theories. After thirty years of research, he concluded that **crops fed with sea minerals grow better** than those produced using conventional methods. Crops exhibited **larger yields**, plus significant **natural disease & insect resistance**. Plant tissue analyses indicated **higher vitamin, sugar & protein levels** plus livestock were shown to prefer sea-mineral enriched feed-stock.

Dr. Murray's sea mineral solids, now trademarked **SEA-90**, is a 100% natural & **water-soluble** mined mineral listed by the Organic Materials & Review Institute for the production of organic food & livestock. **SEA-90** sea-mineral solids are produced bi-annually in a pristine location from fresh sea water rich in trace elements. Intense **solar dehydration** removes all water. **Rain never falls on SEA-90: This guarantees that all of the vital minerals & trace elements are in the perfect proportions and quantities found only in pure ocean water.**

SEA-90 solubilizes to disburse a full spectrum of **vital trace elements** into the soil following a thorough rain or watering, as well as **easily dissolving for foliar and drip applications**. In addition, **SEA-90** can be offered free choice to livestock or mixed into feed-stock & supplements.

Learn more in Dr. Murray's book: 'Sea Energy Agriculture'. Also, read Charles Walters' book: 'Fertility From The Ocean Deep'. Available from SeaAgri or **Boogie-Brew**

APPLICATION INSTRUCTIONS

Livestock Mineral

Replaces salt rations. Dissolve 1lb/ 250gals.

Cattle, Sheep, Hogs, Goats:	Offer free choice or two ounces per day in feed
Dairy Cows:	3 ounces twice daily
Horses:	14 lbs per ton feed
Turkeys:	15 lbs per ton feed
Chickens:	10 lbs per ton feed

Foliar Application Rates:

Dissolve specified amount of **SEA-90** in 10 to 20 gallons of water. Filter if necessary.

Hay/Pasture: 5lbs/acre at green-up & after cutting

Row Crops: 3.5lbs per acre every 14 days

Liquid Row Support:

6lbs per acre at time of planting.

Small Fruits & Tree Fruits:

2.5lbs per acre every 7-10 days.

Garden, Wheat Grass or Sprouts:

1tsp per gallon; apply every 7 days

Garden & Soil Mixes:

3/4lb per 100sq ft. tilled into the soil each planting. 1tsp per gallon soil mix.

Hydroponics:

1lb/100 gallons or 1tsp/gal weekly

Aquaponics:

5lbs/50gal water (salt water fish)

COMPOST TEAS:

Use 1teaspoon/gal added to brew.

Will improve ALL tea recipes and massively boost microbial activity!
