## Featured Products

### Boogie-Base

- Synchronizes relationships between plants, microbes & soil. Use as a tea-base or soil additive.
- Combine, (as PART A), 1:1 with **Boost** (PART B).

### Boogie-Boost

- High-grade elixirs enhance brew process, promote recycling of nutrients in the rhizosphere.
- Combine, (as PART B), 1:1 with **Base** (PART A). Use as a tea-boost or soil additive.

### Boogie-Brix

- Microbial-food & soil-sweetener. Achieve record brix levels while improving flavor & quality with a blend of sugars & bio-stimulants.

### California Basalt Deposit (C.B.D. Minerals)

- Micronized minerals provide an exceptional range of trace-inputs. (Caliuana Rock Dust)

### Boogie-Blue Filters

Available in Basic, Classic & Plus Models

*Trumping the competition at ideal price-points!*

First step to a healthy garden: Save your soil life!

- \* Durable catalytic carbon/KDF membranes.
- Reduce chlorine, metals & chemical/VOCs.

### Approximate life-span:

Boogie Basic - 10k gallons

Boogie Blue - 35k gallons

Boogie Plus - 45k gallons

GARDEN • LIVESTOCK / PETS • POOLS & PONDS  
COMPOST TEAS • WATER SYSTEMS • ANY 3/4" HOSE

Veeganic® Compost Tea**

*The Farmer's Friend®*

**One-Stop Growing Solutions  
Slash Liquid Product Costs  
Achieve Gardening Excellence!**

**CALIUANA REPUBLIC**

## What Is Heavy Harvest Boogie Brew Tea?

- Boogie Brew is a one-stop solution for all your gardening & eco-farming needs.
- Our special formula works as both a 100% natural, high-quality 'Veeganic'© garden amendment, & also as a valuable soil-tonic.
- Activate a dynamic blend of bio-matter for simply stunning results!
- Maximize plant protection and immune response by harnessing the power of the soil-food-web: Nature's own primal defense system.

## Why Is Boogie So Effective?

- A cutting-edge blend of Veeganic© elixirs are employed to yield crucially higher brix & quality levels, plus much heavier harvests!
- Deluxe soil-conditioners and amendments combine in a two-part system to produce our superior tea.
- Upon aeration, this infusion acts as a catalyzing agent, bridging the gap between soil, nutrient & plant.

By effectively harnessing the full force of nature's inner biological rhythms, **Boogie Brew** greatly increases overall plant metabolism & efficiency.

Use other organic inputs sparingly (half-strength) & try to feed separately from your tea applications!  
**With Boogie Brew, less is always more!**

## Achieve Gardening Excellence!

"Within just weeks, an abundant food crop of delicious produce was achieved, easily, and all at a low cost!"

– Paul A., Sebastopol, CA

"The oil-content & quality of my flowers has never been so high! Potent taste & smell: No deficiency issues...Saved money too! Boogie made it easy."

– J., Santa Rosa, CA

"Since using Boogie Brew, our garden has achieved new levels of wellness. Tomatoes tripled after two weeks. Roots are bursting out of the pots! Friends amazed by our plants' vitality: We fed only mild organic fertilizers... Things simply couldn't look better"

– R., Boulder, CO

## Heavy Harvest 2-Part Pro Formula:

**Boogie-Base** – Organic Ingredients (**Part A**): Worm Castings, Composted Wood Chip Humus, Bio-Char, Trace Ocean Minerals, Volcanic Rock Ash.

**Boogie-Boost** – Organic Ingredients (**Part B**): Kelp Extract, Amino Acids from Hydrolyzed Soy, Nutritional Yeast, Kelp Meal, Soybean Meal, Humates, Evaporated Cane Juice Sugar, Humic Acid with Potash, Alfalfa Meal, Rock Phosphate, Langbeinite.

## Cali-Crafted Recipe

A Global Epicenter  
For Horticultural Leadership!

Located in California's elite '707 Grow-Code', **Boogie** features world class ag-products. Learn more about Heavy Harvest ingredients & view our 'Open SourceCompost Tea' recipe at:

[www.BoogieBrew.com](http://www.BoogieBrew.com)

## The World's Greatest Compost Tea!

- Boost plant metabolism & efficiency.
- Reduce transplant shock & stress.
- Grow high-grade edibles rich in aromatic oils.
- Eliminate pricey supplements & fortifiers.

## Go Green by Growing Green!

Eliminate plastic jug usage! Reduce the need for costly liquid fertilizers!

The burn from fancy chemical 'nutrients' destroys a soil's microbial web-of-life, forcing your plants to rely on external and synthetic foods.

• Support Healthy Eco-Systems: Protect groundwater & sensitive wildlife habitats from contamination.

- Stronger plants reduce pesticide, nutrient & water consumption.
- Growers save valuable dollars while conserving precious resources.

## Brew Your Way To A Greener Thumb Today

**Step 1:** Add dry tea to brew-bag. Use 1 cup for each 5 gallons of brew: Apply equal amounts, (1/2 cup each), of both **Boogie-Base**, (Part A), & **Boogie-Boost**, (Part B).

**Step 2:** Place an **Air-Stone** into reservoir & connect to pump\* via air-tubing.

(Optional: place an extra **Stone** directly into bag.)

\*Preferred air-pump rated at 1 to 2 liters of air per liter of tea.

**Step 3:** Immerse bag into a chlorine-free bucket or reservoir. Use a hose mounted water-filter\*\* to create this environment. (\*\***Boogie Blue Filter**)

**Step 4:** Brew away! Turn on air pump: Within just hours some activity will occur! Allow 24 hours for proper aerobic-infusion. (\*Ideal water temp. is 73°F)

## Application:

Full-strength tea uses 1 cup of combined dry mix ingredients (A & B) per 5 gallons of brew. (Apply 1/2 cupeach of **Base** & **Boost**).

- **Volume of Tea Required:** Recommended is 1 quart to 1/2 gallon per cubic foot of soil.
- **Soil/Hydroponics:** Dilute full strength tea from 1:2 to 1:10 and drench media weekly.
- **Stand-Alone Tea:** For rich soils, dilute from 1:2 to 1:4. Feed once every 5 days with occasional top dressings. Apply half-strength, (1:2), to plants grown in mild soil. Supplement with top-dressings. (**No liquid fertilizers!**)
- **Foliar-Feed:** Dilute 1:5 for a protective leaf-spray.
- **Lawns:** Dilute 1:20 & spray weekly.
